

The intimus® 1000 physically destroys the hard disk drive by bending, breaking and mangling the components of the drive.

When it has done its work, data platters are bent and separated from the hub, the hard disk drive housing is cracked and the PCB boards are broken. This hard disk drive crusher is the optimal complement to put the finishing touches on your degaussing process.

As it does not rely on software, it is able to destroy all kinds of hard drives regardless of size, operating system or interface. With an included auto height detection system the intimus® 1000 is able to destroy even multiple hard disk drives in a single sequence.

- ✓ Proven Destruction
- ✓ Intuitive Use
- ✓ Fast and Reliable

### Technical data

Destruction system:	Physical Destruction Electrically Driven Wedge
Working cycle:	10 seconds Destroy Cycle 20 seconds Full Cycle Max. Throughput: up to 180 cycles/hour
Media:	1 Hard Disk Drive Full Size (1.66" / 2") 2 Hard Disk Drives Standard Size (1") 6 Laptop Hard Disk Drives within one working cycle
Temperature range:	+5 - 40 °C
Humidity range:	10 - 40 %H
Supply voltage (Volt):	230 Volt
Power consumption:	1.2 A
Warranty on machine (years):	2 years
Width (cm):	40 cm
Depth (cm):	18 cm
Height (cm):	35 cm
Weight gross (kg):	36 kg
weight net (kg):	30 kg
Type of packaging:	Shipping Case
Packaging dimensions (L/W/H):	33/53/67 cm
Packing unit:	1
