

165-S

COUNTERFEIT DETECTOR

TOP-OF-THE-LINE COUNTERFEIT DETECTION

The Safescan 165-S uses the latest counterfeit detection technology to scrutinize six advanced security features built into today's currencies: infrared ink, magnetic ink, metallic thread, size, thickness, and watermark. This technology is so reliable it will detect double notes, half notes, and even the superdollar, the most sophisticated counterfeit banknote ever created. In just half a second, you'll know with 100% certainty whether the banknote in your hand is genuine or counterfeit—and your customer will know, too, eliminating unnecessary discussion.

- 100% counterfeit money detection (including "Superdollar")
- 7-point automatic counterfeit detection: Infrared, Magnetic ink, Metallic thread, Watermark, Size, Thickness and Color
- Also suitable for the new USD 100 banknote
- Counterfeit banknote alarm with visual and audio alert
- Money counter showing quantity and value
- Checks 8 currencies: MYR, SGD, HKD, CNY, JPY, EUR, USD, GBP
- Suspected banknote alarm with visual and audio alert
- Shows quantity and totals
- Large and clear LCD display
- Compact size
- Currency update port
- Verification speed: < 1/2 second
- Automatic banknote verification

VERIFIES UP TO 8 CURRENCIES
